

Press release

Reutech Australia Announces PT Jarvis Sinergi Yasa as New Distributor in Indonesia

Reutech Australia, a leading provider of geotechnical mining technology solutions, is pleased to announce the appointment of PT Jarvis Sinergi Yasa as its new distributor in Indonesia. The partnership will provide customers in Indonesia with access to Reutech Australia's technology solutions, along with the local expertise and support of PT Jarvis Sinergi Yasa.

As a natural resources consultant, PT Jarvis Sinergi Yasa brings extensive knowledge and experience in geological, mining, management, and refining processing to the Indonesian mining industry. With a reputation for providing excellent service and expertise, PT Jarvis Sinergi Yasa is an ideal partner for Reutech Australia.

"We are delighted to partner with PT Jarvis Sinergi Yasa and expand our reach into the Indonesian market," said Mr. Richard Evans, General Manager of Reutech Australia. "Their local expertise and excellent reputation in the Indonesian mining industry make them an ideal partner for Reutech Australia."

Reutech Australia's technology solutions are designed to improve safety, productivity, and efficiency in the mining industry. With PT Jarvis Sinergi Yasa as its new distributor in Indonesia, Reutech Australia is well-positioned to support the growth and development of the Indonesian mining industry.

Under this agreement, PT Jarvis Sinergi Yasa will sell all Reutech Australia solutions in Indonesia. This includes advanced technology solutions for the geotechnical mining industry such as the Movement and Surveying Radar range as well as Berm Monitoring Systems designed to enhance the safety of backfilling over windrows.
